Art Unit: 2115

1. This action is in response to amendment received on February 9, 2005. Claims 16-30 are pending. Claims 1-15 have been canceled.

2. The following is an examiner's statement of reasons for allowance:

The cited references describe various systems and methods for updating a BIOS in a flash memory. Cooper et al (5,805,882) describe controlling an LED display during a BIOS update/recovery with figure 10A. James, Jr. et al (6,363,492) also describe controlling an LED display during a BIOS update/recovery with figures 4A-4D. None of the cited references teach or suggest the recited combination of elements/steps.

The claimed invention is allowable over the art of record because the art of record does not teach or suggest a method or apparatus of an LED displaying system for updating a BIOS comprising the combination of interrelated elements/steps as claimed in independent claims 16 and 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis M. Butler whose telephone number is 571-272-3663. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
